

Brighter Futures Indiana is a project from the FSSA (Family and Social Services Administration) Office of Early Childhood and Early Learning Indiana. A brief description:

Indiana's *Build, Learn, Grow* program helps families connect to the care and education support their children need – building reliable child care infrastructure, creating new learning opportunities for young students, and helping our communities grow. The *Build, Learn, Grow* program offers families that work in essential businesses scholarships toward their children's early care and education, summer learning or out-of-school time care.
