When and how will the registrant get the information for Ton of Toys?

As soon as SVdP administration has registration information in the database, typically within 2 business days if sending information by email. *Please encourage email addresses as the USPS takes a long time to mail information and we allow registration all the way up to two business days before the event.*

What does registrant need to bring to shopping days?

Registrant needs to bring some form of government-issued ID, and name must match that on the registration form. Must bring some form of identification for every registered child. ID does not need to be government issued, but needs to show child's name, minimally.
