

Health Access Department

Community health workers

We are here to help

Health Access is a community care coordination program sponsored by Ascension St. Vincent. Inspired by the work of St. Vincent DePaul, the goal of the Health Access Department is to connect our friends, family and neighbors in a comprehensive system, integrating health, human and social services that results in improved access and removal of barriers to necessary resources.

Community health workers are here to help you with:

- Find a doctor
- Free or reduced-cost drugs through the prescription assistance program
- Apply for health coverage (HIP, Hoosier Healthwise, Marketplace)
- Apply for public programs (SNAP, TANF, social security, WIC, etc.)
- Connections to other community resources and agencies for assistance (such as utility assistance, food, housing, etc.)

For more information, please contact your local community health workers.
